	"24 months oak aging in used Bruichladdich Octomore barrels has lent a woody, intensely peaty smokiness to our 'stock' Porter, which we have blended with a younger beer. This latter adds vitality to the brew. Hospital Porter one beer that is best not over-chilled, and, like the original Porters, will mature with age. This beer has only been available on draught at the Old Brewery at the Old Royal Naval Hospital — until now." - Reviewed by: Producer
