"This full-bodied, colossal giant of a wine is one of the goliaths of the vintage. It may well have the highest level of natural alcohol for any wine from the Left Bank of Bordeaux (15.1%) and has the definite potential to be a 50- to 75-year wine. Dense purple, it offers up notes of lead pencil shavings, charcoal embers, blueberry and blackberry liqueur along with massive concentration, a multi-dimensional mouthfeel and a monumental finish that goes well past a minute, which I think might be a record for a young Bordeaux. Keep in mind that the 2009, which I gave three digits, came in at 14.7%, but the pH of the 2010 is lower, giving the wine a freshness and precision that is remarkable. The final blend was 62% Cabernet Sauvignon, 37% Merlot, and – unlike the Chapelle de la Mission, which has 26% Cabernet Franc – there's only 1% Cabernet Franc in the 2010 La Mission Haut-Brion. This is a wine for those of you with youth on your side as well as patience. It will need a good decade of cellaring. An amazing wine." -Robert Parker - Reviewed by: The Wine Advocate - 98pts

It is an extraordinarily complex, concentrated effort made from a blend of 46% Merlot, 40% Cabernet Sauvignon and 14% Cabernet Franc with the highest alcohol ever achieved at this estate, 14.3%. Even richer than the perfect 1989, with similar technical numbers although slightly higher extract and alcohol, it offers up a sensational perfume of subtle burning embers, unsmoked cigar tobacco, charcoal, black raspberries, wet gravel, plums, figs and blueberries. There is so much going on in the aromatics that one almost hesitates to stop smelling it. However, when it hits the palate, it is hardly a letdown. This unctuously textured, full-bodied 2009 possesses low acidity along with stunning extract and remarkable clarity for a wine with a pH close to 4.0. The good news is that there are 10,500 cases of the 2009, one of the most compelling examples of Haut-Brion ever made. It requires a decade of cellaring and should last a half century or more.
