|        | <p>"There is a new entry level red from the village of Altea produced exclusively with Garnacha grapes, simply called 2015 Garnatxa Negra (the Catalan spelling of the grape) from grapes purchased from growers. It's a fresh, fruit-driven and unoaked light red fermented in stainless steel and kept in cement for a couple of months before bottling. There is a faint phenolic character here, over a mixture of red and black fruit, quite ripe with some flowers. I also tasted from a bottle that had been open for 24 hours and it had developed a tarry note. The palate shows austere tannins, medium bodied with a good length. Impressive for the price. 100,000 bottles in different lots." -Luis Gutierrez, Oct 2016<br/>Reviewed by: The Wine Advocate - 87 pts - Reviewed by: The Wine Advocate - 87pts</p>  |            |                 |            |

|        | <p>"Part of the collection from different villages from Priorat, Celler Cal Pla produced a 2014 Black Slate Porrera, which is a blend of 50% Garnacha with 40% Cariñena and the rest Cabernet Sauvignon. It is a village wine from 20- to 30-year-old vines on slate soils fermented in stainless steel and concrete vats and matured in 225- and 300-liter oak barrels (80% French oak, 20% Hungarian) for one year. The nose is beautiful, combining violets, a hint of beef blood, something ashy and an organic, soil note, developing a smoky bacon twist with time in the glass. The palate shows good integration of the oak, better than in the majority of wines from this winery. Beautiful flowers appear with time and made me go back to the glass again and again. |        | <p>"The entry-level 2015 Bolo wants to showcase Godello at its purest, and therefore is fermented in stainless steel and bottled early without bâtonnage to preserve the primary character of the grape. 2015 saw an early harvest because of a warm and dry summer, with some rains in the middle of the harvest, which allowed the remaining vines to reach a better phenolic ripeness. The grapes come from the O Bolo zone, both purchased and from their own vineyards. The wine is quite expressive after bottling, a touch reductive, but with powerful aromas of bay leaf and white flowers, quite elegant. The palate is super compact, balanced and fresh, with vibrant acidity that provides great length. The finish is very tasty, mineral, almost salty. This is drinking beautifully; Godello can sometimes be heavy, but that's never the case here, these wines are always fresh and fluid. 120,000 bottles produced from the same cuvée bottled over a number of days in January 2016." -Luis Gutierrez, Apr 2016<br/>Reviewed by: The Wine Advocate - 89 pts - Reviewed by: The Wine Advocate - 90pts</p> |            |                 |            |

|        | "The first of the reds here is the 2008 Viña Cubillo Tinto Crianza from a cooler vintage that produced some austere and serious wines--a year with higher acidity and lively fruit. It feels effervescent and it makes you salivate. This is usually a blend of 70% Tempranillo, 20% Garnacha, 5% Graciano and 5% Mazuelo from 50-year-old vines that ferments in ancient oak vats, and ages in barrel for three years. This cuvée has increased its quality tremendously since the 1990s. These cooler years provide citric freshness, and a very fine texture and vibrant acidity. This is so easy to drink that it can be dangerous. This was the Rioja clarete fino--the everyday red. It's both elegant and powerful. |        | "The Tempranillo grapes for the 2007 Roda I Reserva are sourced from head-pruned Tempranillo vines over 30 years old, mostly around Haro, that ferment in big oak vats with their own yeasts and are transferred to French oak barrels for malolactic fermentation, where the wine matures for 16 months. 2007 was a cold vintage with mildew problems during the growing season and a late harvest which resulted in a true Atlantic vintage with more stuffing than 2008. Here the fruit is darker, black cherries and black plums complemented by notes of very fine spices, with good depth and showing signs of some developed complexity. The medium-bodied palate reveals a pure, delineated, clean wine with fine acidity. It finishes long, with some dusty tannins. It develops a deep Rioja character as the wine opens up in the glass. Give it one or two years to develop some more of than incipient complexity and enjoy over the next decade. Very elegant and fine; it should age with style. |        | "Since the 2010 harvest, they ferment plot by plot, and it shows. This Valbuena has almost 100 components in it, smaller lots, all of them corresponding to a plot of vines. It has all the signs of being one of the best vintages ever for this second wine from Vega Sicilia, mostly Tempranillo but with 5% Merlot that matured five months in 20,000-liter oak vats, 18 months in new barriques (equal parts French and American oak), three months in used barrels and then five months in the vats again before being bottled in May 2013. 2010 seems to have the exuberance of the 2011 and the seriousness and elegance of 2009. It has the Burgundian philosophy of terroir, with all plots fermented and aged separately, giving each vineyard what it needs in terms of vinification and elevage resulting in something like 40 separate lots to blend. This wine has gained in precision and sharpness, and is very pure with delineated aromas and flavors. It is a world-class wine, possibly the best Valbuena ever. 180,000 bottles and some bigger-sized formats were filled. The wine will be released in 2015. Gallica produces a number of different wines, sourced from vineyards all over California, but Napa Valley Cabernet Sauvignon is the king of the cellar. From fruit grown in Oakville's eastern hills, This cuveé (which includes 25% Cabernet Franc) is tiny: in 2013 a mere 249 cases were produced, so it won't be easy to find." |        | <p>"The 2013 Monte Bello Steep Terraces is just as magnificent from bottle as it was from barrel. Unctuous and deep on the palate, the Steep Terraces boasts magnificent intensity. Even with all of its richness, the Steep Terraces possesses considerable freshness, which gives the flavors a distinctly red-fruit leaning profile. Raspberry jam, wild flowers, mint and pomegranate are fused into a long, sweet finish. The Steep Terraces parcel, a core Monte Bello component, was first planted in 1972." -Antinio Galloni, Jul 2016<br/>Reviewed by: Vinous - 97 pts - Reviewed by: Vinous - 97pts</p>  |            |            |            |

|        | <p>"An absolutely outrageous wine and probably one of the great all-time Cabernet Sauvignons from Sonoma is the 2013 Cabernet Sauvignon Monte Rosso Vineyard Sonoma Valley. This is 100% Cabernet Sauvignon from the relatively recent Moon Mountain AVA, that aged for 27 months in 67% new French and 14 % new American oak. This is a wine of thrilling levels of intensity, with an incredible fragrance of spring flowers, blue fruits, black fruits, especially crème de cassis and blackberry, loamy soil undertones, and a touch of licorice and smoke. The wine is full-bodied, with magnificent fruit intensity and purity, loads of glycerin (15.5% alcohol) and a finish of a good 40+ seconds. This is a great bottle of wine that can still be purchased for less than \$100.00, which is increasingly rare in Northern California. Anticipated maturity: 2018-2040." -Robert M Parker, Jr., Oct 2016<br/>Reviewed by: The Wine Advocate - 95 pts - Reviewed by: The Wine Advocate - 95pts</p>   |            |            |            |

|        | "Medium ruby. Spicy raspberry, currant, bitter chocolate, cola, lead pencil and eucalyptus on the strongly oaky nose. Perfumed and intensely flavored, but can't match the '00 for lushness of texture. Still, this is juicy and perfumed in the mouth. Finishes with firm, slightly drying tannins. Avoids greenness but is ultimately a wine of very good rather than complete flavor development." -Stephen Tanzer, May 2001<br>Reviewed by: Vinous - 89 pts - Reviewed by: Vinous - 89pts   |            |            |            |

|        | "The 2008 Monte Bello is striking. It is a decidedly muscular Monte Bello endowed with layers of dark fruit. Tobacco, mint, asphalt and crushed rocks develop in the glass, adding tons of complexity and finesse. A long, saline finish rounds things out beautifully. In 2008 the cold growing season stretched into October and the wine definitely has the feel of a cool vintage. The spring frost and the second year of drought conditions lowered yields significantly. Yields were just 1.25 tons per acre on average, but some of the older vineyards came in at less than 1 ton per acre. The balance of fruit, tannin and structure is simply extraordinary, but the wine needs time, mostly likely lots of it. In 2008 the blend is 72% Cabernet Sauvignon and 28% Merlot." -Antinio Galloni, Aug 2011<br>Reviewed by: Vinous - 97 pts - Reviewed by: Vinous - 97pts |            |            |            |

|        | "The 2013 Monte Bello is utterly spellbinding in its beauty. Finely sculpted and chiseled, with super-expressive aromatics and searing tannins, the 2013 is shaping up to be a modern-day classic. The 2013 is remarkably pure and vibrant for such a big wine. It will be years before the 2013 is close to being ready to drink. Even so, it is magnificent today. Where will the 2013 end up? The future seems limitless for now. Quite simply, the 2013 is a must-have wine. In 2013, Monte Bello is very heavy in Cabernet Sauvignon, partly because Merlot suffered in the drought-like conditions. The 2013 has already begun to shut down in bottle. Readers need to be in for the long haul." -Antinio Galloni, Jul 2016<br>Reviewed by: Vinous - 98 pts - Reviewed by: Vinous - 98pts   |            |            |            |

|        | "A dark, brooding beauty, the 2006 Monte Bello is still very, very young. The aromatics alone are enticing, but the tannins still need time to soften. The 2006 is a masculine, vertical Monte Bello that demands cellaring. Even so, it is pretty impressive today. Scents of lavender, sage, mint and savory herbs add closing flourishes. The perfumed sweetness of the fruit - one of the hallmarks of the very late harvest - remains one of the signatures of the 2006. The 2006 can be enjoyed today or cellared for another 25+ years." -Antinio Galloni, Jul 2016<br>Reviewed by: Vinous - 95 pts - Reviewed by: Vinous - 95pts  |            |            |            |

|        | "Full deep ruby to the rim. Superripe aromas remain just this side of surmaturite: black plum, black cherry, roast coffee, dark chocolate, menthol. (I might have picked this blind as ripe-year St. Julien.) Great lushness and depth on the palate; pliant, seamless and thoroughly ripe, but with strong supporting structure under the seductive flesh. Finishes with noble, broad tannins and great freshness; mint and licorice notes contribute to the impression of grip and snap. The crop level was 2.5 tons per acre, which Draper says was the highest ever at this estate, and the alcohol is 12.9%, on the high side for Monte Bello. Another outstanding vintage for this wine." -Stephen Tanzer, Sep 2000<br>Reviewed by: Vinous - 94 pts - Reviewed by: Vinous - 94pts   |            |            |            |

Tightly wrapped and rather muscular, with black fruit and menthol flavors verging on medicinal. Currently lacks charm and sweetness, but there's plenty of flavor intensity and structure here for aging. The tannins dust the teeth.
