	"Also known as Imperial IPA, this intensely hoppy, yet very drinkable beer lets the malty characteristics take a step back and allows the hops to really shine. Brewed with almost two (2) pounds of hops per barrel and left unfiltered, Six Row Double IPA showcases the citrusy and piney characteristics of the Columbus, Centennial, and Chinook hops." - Reviewed by: Producer

	"Dark, malty, chocolaty, great hop aroma; all can be said of Six Row's Strong Porter. Strong because of the increased alcohol content, hop bitterness and aroma. The Strong Porter was brewed with authentic English malt alongside Black and Chocolate malt to add complexity. The deepness of the malt is complimented by East Kent Goldings and Fuggle hops to balance the slight sweetness typical of traditional English Porters." - Reviewed by: Producer
